*ADIS Reference alpha-numeric code, is a unique identifier automatically generated by the EU Animal Disease Information System (Regulations (EU) 2016/429 e 2020/2002) every time the Competent Authority of each Member State notifies an animal disease outbreak. The actual number of outbreaks is indicated in the first column of the table.

** positivity to highly pathogenic avian influenza virus of the H5N1 subtype in birds other than poultry, namely captive wild birds
